  - A. Initial dealer in each round is chosen by high card, and then passes clockwise.
  - B. No cards will be burned. If a card is accidentally turned up or falls on the floor it will remain in play.
  - C. Betting will start with the best hand showing and go clockwise in order.
  - D. Potting out -if a player does not have enough money remaining to match a bet they will put their remaining money in the pot and all other players still in will match that amount in the pot. The main pot will then be closed. The remainder of the bet that could not be matched will be put into a "side pot." The rest of the bets made for that game would go to the side pot. The player out of money will continue playing until the hand is over with only the opportunity to win the closed pot. If the player out of money wins the closed pot, the side pot goes to the best hand from those players who contributed to the side pot.
  - E. Absolutely no borrowing.
  - F. Everyone will call his/her own hand. However, the cards ultimately speak for themselves.
  - G. PARD staff will resolve any disputes. Their decision is final.
