

## IOS

Download: **Xprotect Mobile** from App Store

If prompted, select **Skip all** on New Feature notices

If prompted, select **Skip for now** on Biometric notice

Select **Add Server**

## Select **Add server manually**

**Enter in the following**

Server name: **mcallen**

Address: **cameras.mcallen.net**

Protocol: **https://**

Port number: **8082**

Select: **Continue login**

The image shows a dark-themed dialog box titled "Add server". At the top left is a "Cancel" button and at the top right is the title "Add server". Below the title are four input fields: "Server name" containing "mcallen", "Address" containing "cameras.mcallen.net", "Protocol" containing "https://", and "Port number" containing "8082". At the bottom of the dialog are two buttons: "Continue login" (highlighted in blue) and "Save and log in later" (in a lighter blue).

Select: **Basic user**

User name: **mcallen**

Password: **mcallen**

Remember me: **enabled**

Select: **Log in**

The screenshot shows a login interface with a dark background. At the top left is a 'Cancel' button in light blue, and at the top center is the title 'Login' in white. Below the title are two radio button options: 'Windows user' and 'Basic user'. The 'Basic user' option is selected and highlighted with a red rectangular border. Underneath, there are three input fields: 'User name' containing 'mcallen', 'Basic user' (empty), and 'Password' (empty). Below the password field is a 'Remember me' toggle switch, which is currently turned on (white). At the bottom, there is a large blue button labeled 'Log in' and a link labeled 'Change password' in light blue text.

Select: **Camera icon** on bottom right of the screen to view cameras

## Android

Download: **Xprotect Mobile** from Google Play Store

If prompted, select **Skip all** on New Feature notices

If prompted, select **Skip for now** on Biometric notice

Select **Add Server**

Select **Add server manually**

**Enter in the following**

Server name: **mcallen**

Address: **cameras.mcallen.net**

Protocol: **https://**
