

Area D-5 South 2nd Street at Byron Nelson Drainage Improvements

Update: 07/28/2026

As part of the City of McAllen's ongoing efforts to improve drainage infrastructure citywide, the S. 2nd Street at Byron Nelson project will enhance our local storm infrastructure and improve overall water management in the area. New storm sewer infrastructure will be installed. Limits of construction will be along Byron Nelson, S. 2nd Street, and Bales Rd. as shown above.

Update: Crews continue with the installation of storm sewer infrastructure along N. 2nd Street and Byron Nelson. Approximately 90% of infrastructure has been installed. Preparations for pavement repairs along trench extents are ongoing. Project is anticipated to be completed by end of August 2026 (weather permitting).

What to Expect:

- **Construction Activity:** Storm sewer installation, pavement repairs, and concrete flat work.
- **Public Utilities Services:** Expect interruptions to water, sewer, garbage, and brush as construction moves along roadways. Scheduled water interruptions notices will be distributed accordingly.
- **Working Hours:** Work will generally take place from 7:00 AM to 5:00 PM. Some weekend work may be necessary.
- **Traffic Impact:** Street closures and delays; construction equipment in the area. Local access to homes and businesses will be maintained whenever possible.
- **Noise and Dust:** Dust and noise during construction; mitigation measures (watering/sweeping).

For questions regarding city services or the overall project, please contact Jose Perez jperez@mcallen.net or Roberto Garza Roberto.garz@mcallen.net or by phone at the City of McAllen Engineering department 956-681-1151.

We appreciate your cooperation and patience as we work to improve our community's infrastructure. Thank you for your understanding and support.
